

Sundream Sunroof

Sundream retractable sunroof especially developed for glass roofs keeps bright rays away simply and effectively. Glass roofs pick up the rays of the sun perfectly; this is thoroughly desirable effect, saving a lot on heating costs, in winter. In the summer you will not get steamed up.

The special, powerful acrylic materials of the shade prevent up to 80 % of the heat irradiation. The most up-to-date awning technology and uncompromising quality guarantee the standard that you are entitled to expect from a top-quality product.

Enjoy the most beautiful aspects of Summer - beneath a Sundream conservatory shade.

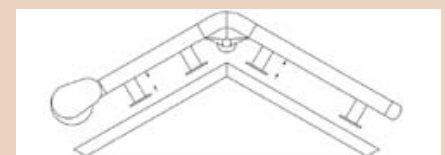

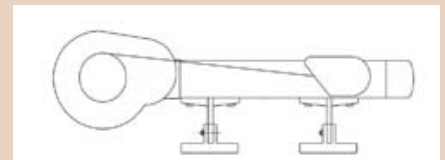

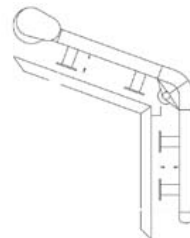

Standard open pergola frame makes ideal structure to support the Sundream sunroof.

Specifications:

Headbox size (h x d) 170mm x 230mm
Total height including mounting feet 213mm
Motorised with remote option A Includes handheld remote control

Optional Features:

- * Steeraround feature up to 90°
- * Integrated mounting frame and gutters Including posts and cross rail
- * Adjustable mounting feet for lateral fixing adjustment
